

## Closing the Loop: Sustainable proteins in the Mediterranean with CIPROMED, ProxIMed, and FunTomP PRIMA projects

Joint Webinar 20th of February 2025, 13:00 CET.

Speakers    Speakers   Zoology, Department of Agriculture Crop Production and Rural Environment, University of Thessaly, Greece	Time (CET)	Title of presentation	Presenter
Speakers  Speakers  Zoology, Department of Agriculture Crop Production and Rural Environment, University of Thessaly, Greece  Legumes: not an overlooked protein source anymore  Title for presentation: The Pulse of Innovation: Exploring Legumes for Plant-Based Nutrition Fermentation: an "all in one" protein source  Title for presentation: Cultivating the Future: Harnessing Fermentation for Sustainable Protein Production  Algae: "one for all and all for one", as a protein source  Algae: "one for all and all for one", as a protein source  Starting an insect company: challenges and shortcomings  Head of Research & Development · MAGM Agricultural Inputs S.A.  Yulia Ryabceva  Supervisor Multiplication center, Nasekom Prof. Christos G. Athanassiou  Laboratory of Entomology and Agriculture Crop Production and Rural Environment, University of Thessaly, Greece			Christina Adamaki-Sotiraki
Title for presentation: The Pulse of Innovation: Exploring Legumes for Plant-Based Nutrition  Fermentation: an "all in one" protein source  Title for presentation: Cultivating the Future: Harnessing Fermentation for Sustainable Protein Production  Algae: "one for all and all for one", as a protein source  Starting an insect company: challenges and shortcomings  14:25-14:45  Insights from the industrial scale of insect rearing  Frass and furious: A new era in fertilizers.  Fitle for presentation: Cultivating the Future: Harnessing Fermentation for Sustainable Protein Production  Prof. Mecit Halil Öztop  Middle East Technical University, Department of Food Engineering  Chairman of the Board and Head of Scient at ILU e.V. Adjunct Professor for Sustainable Chemistry at Leuphana University Lünebu Yarali Paisios, Ayse  Head of Research & Development · MAGN Agricultural Inputs S.A.  Yulia Ryabceva  Supervisor Multiplication center, Nasekom Prof. Christos G. Athanassiou  Laboratory of Entomology and Agriculture Zoology, Department of Agriculture Crop Production and Rural Environment, University of Thessaly, Greece	13:00-13:05	•	,
Title for presentation: The Pulse of Innovation: Exploring Legumes for Plant-Based Nutrition  Fermentation: an "all in one" protein source  Title for presentation: Cultivating the Future: Harnessing Fermentation for Sustainable Protein Production  Algae: "one for all and all for one", as a protein source  Starting an insect company: challenges and shortcomings  14:05-14:25  Insights from the industrial scale of insect rearing  Frass and furious: A new era in fertilizers.  Title for presentation: The Pulse of Head of the Institute of Food Technology Middle East Technical University, Department of Food Engineering  Chairman of the Board and Head of Sciental ILU e.V. Adjunct Professor for Sustainat Chemistry at Leuphana University Lünebu Yarali Paisios, Ayse  Head of Research & Development · MAGM Agricultural Inputs S.A.  Yulia Ryabceva  Supervisor Multiplication center, Nasekom Prof. Christos G. Athanassiou  Laboratory of Entomology and Agriculture Zoology, Department of Agriculture Crop Production and Rural Environment, University of Thessaly, Greece			Prof. Özlem Özmutlu Karslinglu
Title for presentation: Cultivating the Future: Harnessing Fermentation for Sustainable Protein Production  13:45-14:05  Algae: "one for all and all for one", as a protein source  Starting an insect company: challenges and shortcomings  14:25-14:45  Insights from the industrial scale of insect rearing  Frass and furious: A new era in fertilizers.  Prof. Mecit Halil Öztop  Middle East Technical University, Department of Food Engineering  Prof. Daniel Pleissner  Chairman of the Board and Head of Scient at ILU e.V. Adjunct Professor for Sustainat Chemistry at Leuphana University Lünebur Yarali Paisios, Ayse  Head of Research & Development · MAGN Agricultural Inputs S.A.  Yulia Ryabceva  Supervisor Multiplication center, Nasekom Prof. Christos G. Athanassiou  Laboratory of Entomology and Agricultura Zoology, Department of Agricultura Crop Production and Rural Environment, University of Thessaly, Greece	13:05-13:25	Title for presentation: The Pulse of Innovation: Exploring Legumes for	
13:45-14:05  Algae: "one for all and all for one", as a protein source  Starting an insect company: challenges and shortcomings  14:25-14:45  Insights from the industrial scale of insect rearing  Frass and furious: A new era in fertilizers.  Frass and furious: A new era in fertilizers.  Intitle for presentation: Cultivating the Future: Harnessing Fermentation for Sustained Chemistry Department of Food Engineering  Prof. Daniel Pleissner  Chairman of the Board and Head of Scient at ILU e.V. Adjunct Professor for Sustained Chemistry at Leuphana University Lünebu Yarali Paisios, Ayse  Head of Research & Development · MAGN Agricultural Inputs S.A.  Yulia Ryabceva  Supervisor Multiplication center, Nasekom Prof. Christos G. Athanassiou  Laboratory of Entomology and Agricultura Zoology, Department of Agriculture Crop Production and Rural Environment, University of Thessaly, Greece	13:25-13:45	•	Prof. Mecit Halil Öztop
Algae: "one for all and all for one", as a protein source  Chairman of the Board and Head of Science at ILU e.V. Adjunct Professor for Sustainat Chemistry at Leuphana University Lünebut Yarali Paisios, Ayse  Starting an insect company: challenges and shortcomings  Head of Research & Development · MAGM Agricultural Inputs S.A.  Yulia Ryabceva  Supervisor Multiplication center, Nasekom Prof. Christos G. Athanassiou  Laboratory of Entomology and Agricultural Zoology, Department of Agriculture Crop Production and Rural Environment, University of Thessaly, Greece		Future: Harnessing Fermentation for	ļ
